

CX-Tubing Hanger

The Coretrax Tubing hanger is pipe deployed and compression set lending itself to several applications including casing isolation, production and injection. The tubing hanger can also be used to hang sacrificial tubing during P&A operations.

The robust slips allow for the tubing hanger to be set in open hole and cased hole where scale may be present. The Coretrax Tubing Hanger is easily set and can be adapted to act as a base for cement.
