## Frank's Tubular Running Services (TRS) - Casing Technologies

### Belt Tongs

#### Features and Benefits

- Belt will not break apart, even when over-torqued
- Non-stretch belt cords - belt does not store energy
- Reduces personnel on the floor - only two technicians required to operate tong
- Minimizes marking on pipe, leaving minimal die marks
- High torque capacity - up to 110,855 foot-pounds on 36 inch pipe when using SCT3672
- Constant tong balance, as tong stays level whether open or closed
- Ratchets easily via single hand operation
- Fast operation - 10 pound belt deploys and latches in seconds

#### Specifications

Model	
SCT 614H	6 inches - 14 inches
SCT 1020	9 5/8 inches - 20 inches
SCT 1020H	9 5/8 inches - 20 inches
SCT 1838	18 inches - 38 inches
SCT 2036	18 inches - 38 inches
SCT 3672	36 inches - 72 inches

**Reference D1990028007 Reduced Torque Ratings - Gearwrench Belt Tongs for handle lengths and maximum allowable torques of each size tong and belt type (standard & heavy-duty belts).**
