WASP - Air Actuated Drill Pipe Slip Lifter

Expro's air actuated drill pipe slip lifter is used when running and pulling drill pipe.

Features and benefits

- The Expro air actuated slip lifter is designed to be sturdy, yet lightweight
- The slips can be changed to accommodate any size drill pipe with minimal effort
- Adapts to any rotary table
- Accommodates any standard hand rotary slips.
- Safer operations can be performed
- Less manpower on drilling floor is required
- Reduces crew fatigue
