¹ "Adjusted revenue" is defined as revenue excluding items that either distort the underlying trends of the business or are not considered by management to be part of the core operations of the Group. Further details are set out in note 3. Results for the comparative periods have been restated on a constant currency basis by converting each underlying transaction that arose in the period and applying the average monthly foreign exchange rate that prevailed in each month of the current period.

² "Adjusted operating profit" is defined as operating profit excluding depreciation and amortisation and other similar non-cash items, together with other items that either distort the underlying trends of the business or are not considered by management to be part of the core operations of the Group. Further details are set out in note 3.

³ "Adjusted operating margin" is the ratio of adjusted operating profit over adjusted revenue.

⁴ "Capital expenditure" is the equivalent of cash outflow on the purchase of property, plant and equipment as set out within the Condensed consolidated cash flow statement.

 $^{^{\}rm 5}$ "Working capital percentage" is defined within the business review.

⁶ "Net debt" is defined within the business review.

⁷ "LTM leverage" is defined within the business review.

⁸ "Liquidity headroom" is defined within the business review.

Introduction

This report represents the quarterly results for Expro Holdings UK 3 Limited and its consolidated subsidiaries (the "Group").

Financial and operating results

The business review in the quarterly report presents financial and operating results for the following periods:

- Three months to 30 September 2011 compared to three months to 30 June 2011;
- Six months to September 2011 compared to six months to September 2010;
- Three months to 30 September 2011 compared to three months to 30 September 2010.

Key points arising

In order to facilitate an understanding of the Group's performance and progression over prior periods, segmental revenue and adjusted measures have been provided to identify key trends over the periods under review. We would like to highlight the following points in this report:

Equity injection

To support growth, the Group received an equity injection of \$250.0m during the six months to 30 September 2011. In addition, the Group increased its revolving credit facility by \$60.0m to \$160.0m and covenants on both the revolving credit facility and mezzanine loan were amended, resulting in additional headroom. Early settlement provisions were also amended in respect of the mezzanine loan.

Use of adjusted measures

Adjusted items, be that revenue, costs or operating profit exclude depreciation and amortisation and other similar non-cash items together with other items that either distort the underlying trends of the business or are not considered by management to be part of the core operations of the Group. In summary, the exclusion of non-cash charges such as depreciation, amortisation and impairment means that this measure is similar to EBITDA. Full details are set out in note 3.

Restatement of comparative segmental information

The Group concluded the acquisition of the business of Production Testers International ("PTI") on 1 September 2010. The Group's existing operations in Thailand and Vietnam were similar in nature to the operations of PTI and as a result have been integrated into the acquired business to create the Expro PTI business unit ("Expro PTI"). The Group has updated its segmental reporting as a result of the acquisition and, accordingly, comparative segmental financial information for the period ended 30 September 2010 has been restated to reflect this change.

Expro Meters

The Expro Meters business unit was classified as an adjusted item in previous reporting periods on the basis that operations were focused on product development, and therefore not considered by management to be part of the core operations of the Group. As a significant part of the Expro Meters business is no longer in the development stage, the results are now reported within the adjusted results of the Group. All comparative segmental financial information has been updated to reflect this change.

Three months to 30 September 2011 compared to three months to 30 June 2011

	3 months to September 2011 \$'000	3 months to June 2011 \$'000	Change
Adjusted revenue – constant currency ¹	284,892	271,316	5.0%

Revenue	284,892	303,032	(6.0%)
Operating profit	12,737	36,976	(65.6%)

Overall trading performance

Adjusted revenue in the three months to September 2011 of \$284.9m increased by \$13.6m or 5.0% compared to the prior quarter on a constant currency basis. With the exception of South and West Africa, Asia and North America Offshore, all business units were ahead of the prior quarter, most notably in Europe CIS, Connectors and Measurements and Expro PTI. Activity in South and West Africa was impacted by the phasing of projects, whereas Asia was behind primarily as a result of lower pass-through revenue in Australia.

The adjusted operating margin was 0.1pts higher reflecting slightly lower trading margins, which was primarily due to start-up costs in relation to projects due to commence in the second half of the year, with some beneficial offset from corporate charges incurred in the first quarter not repeated in the current quarter.

Regional Businesses

Europe CIS

Revenue in the three months to September 2011 of \$79.9m was 8.6% higher than the previous quarter, with increased activity in the UK North Sea reflecting the typical seasonal weather patterns. Underlying activity across Continental Europe was also ahead of the previous quarter reflecting additional activity in offshore Israel.

South and West Africa

Revenue in the three months to September 2011 of \$47.9m was 15.5% lower, most notably in Cameroon following the end of a major contract and in Angola where the phasing on the construction and sale of equipment also adversely impacted revenue. This lower activity was partially offset by the start of a multi-service line project in Gabon.

Middle East North Africa

Revenue in the three months to September 2011 of \$19.9m was 21.2% higher, with well test activity in Algeria and Saudi Arabia accounting for the majority of the increase. During the current period activities in Iraq continued to gain momentum.

Asia

Revenue in the three months to September 2011 of \$14.9m was 3.0% lower, with lower pass-through revenue in Australia being partially offset by the start of a series of subsea development projects in China.

North America Land

Revenue in the three months to September 2011 of \$19.4m was 2.9% higher, reflecting the increased rig count in the US.

North America Offshore

Revenue in the three months to September 2011 of \$19.6m was 5.1% lower, reflecting the usual seasonal aspect of work in Alaska.

Latin America

Revenue in the three months to September 2011 of \$23.8m was 0.9% higher, reflecting higher activity in Brazil and Columbia offset by lower well test and subsea activity in Argentina.

Global Businesses

Connectors and Measurements

Revenue in the three months to September 2011 of \$31.8m was \$5.5m higher than the previous quarter, with increased sales to subsea tree vendors, reflecting the anticipated growth in subsea developments.

Expro PTI

Revenue in the three months to September 2011 of \$18.3m was \$5.1m higher, reflecting an increase in production optimisation activity in Thailand and the design and build of an early production facility in Malaysia.

Equipment Sales

Revenue in the three months to September 2011 of \$8.4m was \$2.2m higher.

Expro Meters

Revenue in the Expro Meters business was above the prior quarter, after adjusting for inter-company sales.

Revenue	587,924	501,812	17.2%
Operating profit	49,713	37,866	31.3%

Overall trading performance

Adjusted revenue for the six months to September 2011 of \$556.0m was ahead by \$52.2m or 10.4% on a constant currency basis compared to the same period in the prior year. Despite the impact of the conflict in Libya which had a significant impact on the Middle East and North Africa region and a reduction in the level of subsea and well test work in Australia which affected the Asia region, increased activity in South and West Africa and the acquisition of Expro PTI more than offset those shortfalls.

The adjusted operating margin was 3.4pts lower, reflecting the operational impact of the conflict in Libya, start-up costs in Iraq, operational gearing in Asia and the end of certain higher margin projects in South and West Africa. Investment in the Group's product line support structure also impacted the margin.

Regional Businesses

Europe CIS

Revenue in the six months to September 2011 of \$153.4m was 4.3% higher, primarily reflecting increased subsea activity in the UK North Sea and the start of activity in offshore Israel.

South and West Africa

Revenue in the six months to September 2011 of \$104.6m was 19.4% higher, reflecting higher levels of activity across multiple product lines in Angola, Equatorial Guinea, Cameroon and Ghana. The revenue performance was offset by the end of the Dibi contract, a large scale early production facility in Nigeria.

Middle East North Africa

Revenue in the six months to September 2011 of \$36.4m was 19.1% lower, as the effects of the civil unrest, most notably in Libya, affected activities. The results of the region were also impacted by reduced levels of well test activity in Saudi Arabia due to the transitioning of some work over to other service providers.

Asia

Revenue in the six months to September 2011 of \$30.2m was 26.8% lower. Well test and subsea activity in Australia in the same period last year was lower as a number of development projects came to an end. Year to date performance was also lower as a result of the completion of an exploration and appraisal campaign in China; although the Group is due to commence work on the development phase in the second half of the year.

North America Land

Revenue in the six months to September 2011 of \$38.2m was 12.7% higher, reflecting the increased rig count across the US land markets.

North America Offshore

Revenue in the six months to September 2011 of \$40.3m was 2.8% ahead of the same period in the prior year, with reduced well test and subsea activity in Canada being more than offset by increased levels of activity in the Gulf of Mexico.

Latin America

Revenue in the six months to September 2011 of \$47.2m was \$5.9m higher than the same period in the prior year, reflecting the introduction and expansion of services to the Brazilian market, as well as a well test project in Argentina.

Global Businesses

Connectors and Measurements

Revenue in the six months to September 2011 of \$58.3m was 20.5% higher than that of the same period in the prior year, with increased sales to subsea tree vendors, reflecting the anticipated growth in subsea developments.

Expro PTI

The Expro PTI business in the same period in the prior year reflects the legacy Expro Thailand and Vietnam businesses, so is not comparable to the current period revenue. Performance of the Expro PTI business in the six months to September 2011 was in line with expectations.

Equipment Sales

Revenue in the six months to September 2011 of \$14.5m was \$3.0m higher than the same period last year, reflecting increased sales in the US and China.

Expro Meters

Expro Meters revenue increased from \$1.0m to \$2.3m, reflecting the growing traction of this business unit.

Overall trading performance

Adjusted revenue for the three months to September 2011 of \$284.9m was ahead by 10.2% on a constant currency basis, compared to the same period in the prior year, or \$26.4m. Despite the conflict in Libya which had a significant impact on the Middle East and North Africa region and a reduction in the level of call off work in Australia which affected the Asia region, increased activity in South and West Africa and the acquisition of Expro PTI more than offset those shortfalls.

The adjusted operating margin was 2.1pts lower, reflecting the impact of the conflict in Libya, start-up costs in Iraq, operational gearing in Asia and the end of certain higher margin projects in South and West Africa. Regional Businesses

Europe CIS

Revenue in the three months to September 2011 of \$79.9m was 1.1% lower, reflecting the end of a contract in Italy and lower levels of well test activity in Norway. This lower activity was for the most part offset by work in offshore Israel.

South and West Africa

Revenue in the three months to September 2011 of \$47.9m was 7.4% higher, with the end of the campaign with Bowleven in Cameroon being more than offset by the increased activity with Tullow in Ghana, the ongoing design and build of an early production facility and subsea activity in Equatorial Guinea.

Middle East North Africa

Revenue in the three months to September 2011 of \$19.9m was 6.0% lower, as the effects of the conflict in Libya halted activities. The results of the region were also impacted by reduced levels of well test activity in Saudi Arabia due to the transitioning of some work over to other service providers.

Asia

Revenue in the three months to September 2011 of \$14.9m was 24.7% lower. Well test and subsea activity with in Australia in the same period last year was lower as a number of development projects came to an end. Activity in Brunei was more than offset by the start up of subsea contracts in Malaysia.

North America Land

Revenue in the three months to September 2011 of \$19.4m was 15.2% higher, reflecting the increased rig count across the US land market.

North America Offshore

Revenue in the three months to September 2011 of \$19.6m was 2.6% ahead of the same period in the prior year, with reduced well test and subsea activity in Canada being more than offset by increased levels of activity in the Gulf of Mexico.

Latin America

Revenue in the three months to September 2011 of \$23.8m was \$4.7m higher than the same period in the prior year, reflecting additional services supplied within the Brazilian market.

Global Businesses

Connectors and Measurements

Revenue in the three months to September 2011 of \$31.8m was 29.9% higher than those of the same period in the prior year, with increased sales to subsea tree vendors, reflecting the anticipated growth in subsea developments.

Financial position, liquidity and capital resources

The Group's financial position has improved since the preceding year end, reflecting the recent equity injection of \$250.0m. Leverage has remained broadly constant with net debt and adjusted operating profit both at similar levels compared to the year ended 31 March 2011.

The Group's liquidity improved over the same period, reflecting the equity injection and expansion of the revolving credit facility, cash interest payments, the final contingent payment in respect of the PTI acquisition, higher capital expenditure and higher levels of working capital. The increase in capital expenditure reflects commitments to new contracts as well as the opportunities the Group sees within its sector. These new contracts and opportunities should allow the Group to improve financial performance and grow into its current capital structure.

Working capital

Working capital as a percentage of annualised adjusted revenue was 16.7% as set out below. This increased during the period, reflecting a combination of additional revenue and collection issues experienced in both West Africa and Latin America. The Group has made progress on these specific issues after the reporting date.

Covenants

The Group has maintenance covenants on its Mezzanine debt and Revolving Credit Facility. At the 30th September 2011 and based on the Group's current projections, covenant headroom remains adequate.

Outlook and risk factors

In the first half of the financial year, the Group's performance remained consistent with prior quarters, reflecting a relatively stable market. While performance has been slightly below expectations, liquidity has been preserved through a measured approach to capital expenditure. In addition, the lower capital expenditure reflects the movement of certain near term opportunities to later periods.

As regards the second half, the Group remains cautiously optimistic and expects to see an improvement in performance, reflecting the continued strengthening in the international oil and gas sector and the benefits of its increased capital expenditure programme. This anticipated near term improvement is, however, subject to the timing of significant offshore oil and gas developments, which in turn are subject to the decision making processes of both International and National Oil Companies.

In the longer term, the Group continues to believe it has excellent growth prospects reflecting the opportunities arising from the continued demand for hydrocarbons, the tightening of supply and its position within the Oil Field Service sector.

1. Corporate information

The condensed consolidated financial statements of the Group for the six months ended 30 September 2011 were authorised for issue by the Company's directors on 29 November 2011. The Company is a limited company incorporated in Great Britain and domiciled in England and Wales.

2. Basis of preparation and accounting policies

Basis of preparation

The basis of preparation and accounting policies set out in the annual report and accounts for the year ended 31 March 2011 have been applied in the preparation of these condensed consolidated financial statements as disclosed below. The condensed consolidated financial statements for the six months ended 30 September 2011 have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union. The condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2011.

The figures for the six months ended 30 September 2011 and six months ended 30 September 2010 are unaudited and do not constitute full accounts within the meaning of s.435 of the Companies Act 2006. The financial statements for the year ended 31 March 2011, which have been delivered to the Registrar of Companies and on which the auditors have issued an unqualified audit report, did not contain a statement under s.498(2) or s.498(3) of the Companies Act 2006.

The financial risks are detailed in the business review of the Group's annual financial statements as at 31 March 2011. Having considered these risks and the current economic environment it is expected that the Group has adequate resources to continue in operational existence for the foreseeable future. Accordingly the condensed consolidated financial statements have been prepared on a going concern basis.

Accounting policies

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 March 2011.

3. Adjustments

Adjusted revenue

Adjusted revenue is defined as revenue excluding items that either distort the underlying trends of the business or are not considered by management to be part of the core operations of the Group.

	3 months to September 2011 \$'000	3 months to September 2010 \$'000	6 months to September 2011 \$'000	6 months to September 2010 \$'000

Adjusted revenue	284,892	245,453	556,032	478,162

AX-S

During the year to March 2011, the Group sold the AX-S prototype to Expro AX-S Technology Limited, a company under common control, for \$23.7m. The sale agreement included an earn-out conditional on future events that was pre-paid to the Group for \$31.9m at the year end. The earn-out has been recognised in revenue during the six month period to September 2011 reflecting the achievement of earn-out conditions.

Period ended 30 September 2011

Adjusted operating profit

Adjusted operating profit is defined as operating profit excluding impairment, depreciation and amortisation and other similar non-cash items, together with other items that either distort the underlying trends of the business or are not considered by management to be part of the core operations of the Group.

Period ended 30 September 2011

The effective income tax rate in the six months to September 2011 is -1.4% (six months to September 2010: -2.2%). The tax charge has been calculated by categorising income and applying the best estimate of the annual effective income tax rate for each category of income to the pre-tax income arising in that category for the three month period.

6. Property, plant and equipment

During the six month period to September 2011, the Group acquired plant and equipment with a cost of \$65.1m (year ended March 2011: \$74.6m additions of which \$36.7m related to finance leases).

Assets with a net book value of \$4.0m were disposed of by the Group during the six months to September 2011 (year ended March 2011: \$1.9m).

As at 30 September 2011, the Group had entered into contractual commitments for the acquisition of property, plant and equipment with an expected capitalised value of \$55.7m (March 2011: \$56.3m).

On 20 April 2011, \$15.0m of the revolving credit facility was drawn, with a further \$60.8m being drawn on 25 May 2011. The balance was repaid in full on 25 July 2011.

The Group increased its revolving credit facility by a further \$60m to \$160m, effective 11 August 2011. Covenants on both the revolving credit facility and the mezzanine loan were amended, resulting in additional headroom, and additional transaction costs were recorded during the period to September 2011. Early settlement provisions were also amended in respect of the mezzanine loan.

9. Derivative financial instruments

The Group's mezzanine term loan is at a floating rate and bears interest fixed for periods of three months, based upon 3 month US Dollar LIBOR. As a result, the Group is exposed to cash flow interest rate risk.

As at 30 September 2011, the Group held interest rate swaps designated as cash flow hedges with a fixed swap rate of 6.27%. Interest payable or receivable under the swap is the difference between the prevailing 3 month US Dollar LIBOR rate and the fixed swap rate. The swaps re-price on a quarterly basis when contractual cash flows fall due.

The Group assessed the hedge effectiveness of its swaps both prospectively and retrospectively at 31 March 2011; the swaps were assessed to be ineffective retrospectively and as a result, hedge accounting ceased from 1 January 2011. The hedging reserve relating to the swaps is being amortised through profit and loss over the remaining life of the instruments. A fair value loss of \$20.7m has been recognised in the income statement in the six month period to September 2011.

Period ended 30 September 2011

10. Share capital and share premium

During the six month period to September 2011, Expro Holdings UK 3 Limited issued two £1 ordinary shares to the immediate parent company, Expro Holdings UK 2 Limited, at a premium of \$249.7m, net of transaction costs of \$0.3m.

12. Related party transactions

Transactions between the Company and its subsidiaries, which are related parties, have been eliminated on consolidation and are not disclosed in this note.

During the six month period to September 2011, costs of \$0.4m (six months to September 2010: \$0.4m) were charged to the Group by Goldman Sachs, Arle Capital Partners (formerly Candover Partners Ltd until 16 June 2011) and AlpInvest (the "Investors"), in accordance with the terms of the Consortium Deed between the Company's subsidiary Expro Holdings UK 4 Limited and the Investors, dated 6 November 2008. Costs include directors' fees incurred by the Investor-nominated directors of, and board observers connected to, Expro International Group Holdings Limited, the Company's principal holding company.

At 30 September 2011, the Group held a 50% stake in a joint venture, COSL – Expro Testing Services (Tianjin) Co. Ltd ("CETS") and a 49% stake in a joint venture, PV Drilling Production Testers International Company Limited ("PVD-PTI"). As at 30 September 2011, the Group held balances of \$1.1m and \$0.8m in respect of dividends receivable from CETS and PVD-PTI respectively.

At 30 September 2011, the Group owed \$3,388.6m (March 2011: \$3,171.5m) to the immediate parent company, Expro Holdings UK 2 Limited, of which \$217.1m of interest has been expensed during the period (period to September 2010: \$186.6m).

During the year to March 2011, the Group sold the AX-S lightweight, deepwater intervention prototype to Expro AX-S Technology Limited, a company under common control, for \$23.7m. The sale agreement included an earn-out conditional on future events that was pre-paid to the Group for \$31.9m at the year end. The earn-out has been recognised in revenue during the six month period to September 2011 reflecting the achievement of the earn-out conditions.

Period ended 30 September 2011
