

Well Construction

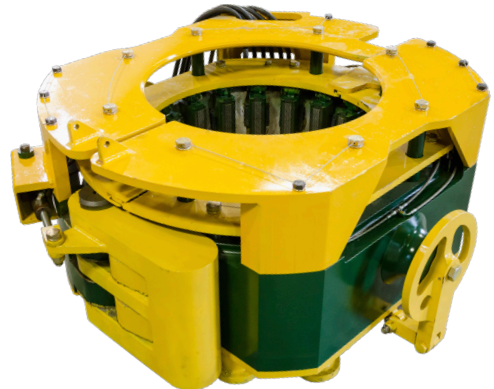

Frank's Tubular Running Service (TRS) - Casing Technologies

JET STRING ELEVATOR™

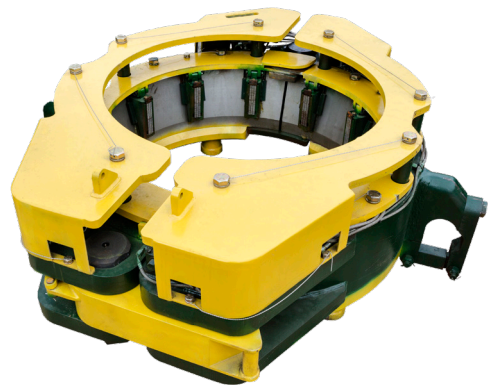

Expro's JET STRING ELEVATOR™ (JSE) is designed to lift flush-O.D. casing from the horizontal to vertical position. This elevator eliminates the need for padeyes to be installed, reducing the risk of dropped objects, and enhances operational safety and efficiency. The hinge design of the tool allows for easy installation in the horizontal position.

Features and Benefits

- Designed to meet or exceed API STD 8-C requirements
- Reduces rig time and cost
- Hydraulically operated

30-inch 350-ton JET STRING ELEVATOR™

36-inch 125-ton JET STRING ELEVATOR™
