

# Well Construction

## Frank's Tubular Running Service (TRS) - Casing Technologies

### Remote-Controlled Boxing Device

#### Features and Benefits

- Maximizes safety by removing personnel from red zone
- Pipe control apparatus to help guide pipe as it is being stabbed
- Replaces traditional, manual stabbing guides with remote controlled operation of the stabbing process
- Minimal caliper changes required through a wide range of tubular diameters due to the pivoting V-shaped design
- Caliper design allows for running all collar sizes, from largest diameter offsets down to flush joint connections
- Accommodates tubular sizes ranging from 4-inch to 20-inch and is suitable for drill pipe, casing and completion tubing
- Adapts to 37 1/2-inch or 49 1/2-inch rotary tables, can adapt to other bushings when needed

#### Specifications

Height (in./cm)	104 (264.16)
Width (in./cm)	48 (121.92)
Length (in./cm)	86 (218.44)
Weight (lbs/kg)	2,200 (998)
