

Well Construction

Frank's Tubular Running Service (TRS) - Completions Technologies

500-ton Completions Elevator

Features and benefits

- Compact design for use on smaller rigs
- Bail stabilizers prevent the elevator from rotating within the bails
- Hydraulically-powered 25-ton gripping force to prevent slippage on premium tubing
- EXTENDED RANGE™ capabilities allow tool to run tapered tubing strings with minor adjustments and without changing slips
- Equipped with Expro's proprietary spider/elevator interlock system, which ensures the spider/elevator is properly set on the pipe before the companion tool is allowed to open
- 500-ton safe working load tested in accordance with API 8C standards
- Compatible with 500 or 750 ton bails
- Adjustable bottom guide assembly eliminates the need to change guides
- Available with conventional, continuous tooth, or fine point inserts
